In cases where a Vendor is required to move from one roadway to the adjacent roadway of a divided highway, additional mobilization for paving will only be paid if the nearest interchange or crossing point that will accommodate the Vendor's equipment is over five (5) miles from the paving locations.

3.2.28.1 Daytime Paving Mobilization, Contract Item 33: A mobilization for paving charge which may be paid when the ADO quantity, per paving location, is less than 500 tons of Asphalt and nighttime paving is not requested.

3.2.28.2 Nighttime Paving Mobilization, Contract Item 34: A mobilization for paving charge which may be paid when the ADO dictates paving to be done at night.

REQUEST FOR QUOTATION
Asphalt Material, Delivery, & Labor by Vendor

2,500 feet are involved, except between the approach slabs of a bridge or parallel pair of bridges.

3.2.29 Off-Season Plant Opening, Contract Items 106 and 107: If a Vendor is required to open their plant in the off-season to service the needs of the WVDOT, an additional payment will be made. The Vendor will be paid an additional day charge for each additional consecutive day that the plant is open after the first day to service the needs of the WVDOT. If the plant produces no material for any use on any calendar day, either during the week or on the weekend, the WVDOT will pay the first day rate for off-season plant opening on the next day of the WVDOT usage. Payment for this item is subject to the following conditions:

3.2.29.1 Payment for this item can only be authorized and made during the winter months, i.e., between December 15th and March 15th, and then only if the plant would not have otherwise been open. These dates may be revised by the WVDOT District Engineer or their designee, if necessary, to meet specific needs in the field. Any such revision of dates will be in writing and shall be attached to the Vendor's invoice at the time payment is requested.

3.2.29.2 Payment will always be made at the full contract awarded bid price for the first day of plant opening; however, the amount paid from each additional day of plant opening will be reduced as follows:

3.2.29.3 Payment for additional day charge will not be made if the plant has produced over 500 tons on that day. If between 300 and 500 tons have been produced, payment for additional day charge will be made equal to one-half of the contract awarded bid price for the additional day charge. The quantity produced to make this determination shall include all material produced that day, which includes tonnage bought by the WVDOT, other local governments and all private work.

3.2.29.4 The WVDOT will only pay its share of the amount determined to be due for additional day charge as described above. For example, if the plant produces 375 tons and the WVDOT takes 150 tons of the total, 40% of the plant's daily production, payment for additional day charge would be calculated as follows: Since the total daily production is between 300 and 500 tons, the Vendor is due 50% of the additional day charge. Because the WVDOT's share of this daily production is 40%,

REQUEST FOR QUOTATION
Asphalt Material, Delivery, & Labor by Vendor

the WVDOT would pay 40% of one-half of the additional day charge, or in this case, 20% of the additional day charges.

3.2.29.5 A certified statement shall accompany the invoice stating the total quantity produced on the additional day. If payment does not qualify due to tonnage produced, the next consecutive day of plant operation, if any, will qualify for payment at the additional day rate rather than the first day rate for plant opening.

3.2.30 Emergency Work: Emergency work as ordered by WVDOT District Engineer, or their designee is work that shall be initiated within forty-eight (48) hours from when the ADO is received by the vendor. The determination of emergency work will be in accordance with Section 2.6 of these contract specifications. Emergency shall be prominently noted on the ADO and will be paid at 1.50 times the Vendor's bid price.

4. PRICE ADJUSTMENTS:

The bidding index for asphalt cement and fuel will be listed on the Contract Administration website for Fuel, Asphalt and Cement Prices Adjustments listed for September 2026. Contract Base Price at time of bid will be based on September 2026. Reference: <https://transportation.wv.gov/fuel-asphalt-and-cement-prices>.

If the adjusted price of any Contract Item is less than \$0.00, WVDOT will limit the adjustment to \$0.00.

4.1 Price Adjustment of Asphalt Cement (Binder): Due to the uncertainty in estimating the cost of petroleum products that will be used during the life of this contract, adjustment in compensation for **Asphalt Section Contract Items 1 through 17, Asphalt HTPO Contract Item 82, and Ultra-Thin Asphalt Overlay Contract Item 85** is provided for in the Standard Specs 109.10, as amended.

The Price Adjustment for Asphalt Cement formula to be utilized for this contract is:

- 4.2 Price Adjustment of Fuel Oil No. 2 (Diesel Fuel):** Due to the uncertainty in estimating the cost of diesel fuel that will be used during the life of this contract, adjustment in compensation for applicable items shall be per Standard Specs 109.9, as amended, with the exception that factor “C” in the Price Adjustment for Fuel formula is to be broken down by component, as shown in Figure 4.2.

The Price Adjustment for Fuel formula to be utilized for this contract is:

5. **ACCEPTANCE PLAN:** Quality control at the plant and in-the-field shall be the responsibility of the Vendor and shall meet the requirements of MP 401.03.50. Compaction quality control shall be in accordance with Section 401 of the Standard Specifications, as amended. Acceptance testing shall be the responsibility of the WVDOT. Quality assurance of the material shall be as set forth in MP 401.02.27 for Marshall Mix designs or MP 401.02.29 for Superpave mix designs. Referenced MP's, as amended, may be referenced at <https://transportation.wv.gov/mp-400s>.

6. **CONTRACT AWARD:**

- 6.1 **Contract Award:** This Contract is intended to provide Agencies with a purchase price on all Contract Items. All qualified responsible Vendors shall be awarded a contract for those Contract Items bid which meet all mandatory requirements of this Contract. **Bidding Vendor must provide both material and laydown services within the same bid; bids received for material only or laydown services only will be disqualified.** The WVDOT will not coordinate materials and laydown services with separate Vendors.

- 6.1.1 **Determining Low Bid Per Project:** To determine the low bid Vendor for individual repair paving projects, the WVDOT District Engineer or their designee will calculate the lowest overall total cost of the Contract Items required for individual projects. A written ADO will be issued to the

REQUEST FOR QUOTATION
Asphalt Material, Delivery, & Labor by Vendor

Vendor with the lowest overall total cost. Charges for hauling will be calculated according to Section 3.2.4 of these contract specifications.

WVDOT reserves the right to request any one or combination of items for which bids are awarded at the lowest overall total as set forth in this section.

- 6.2 Pricing Pages, Attachment A (“ATT A”) and Attachment B (ATT B):** Vendor shall clearly identify the applicable counties on **ATT A** by marking an “X” beside applicable county/counties for which the bid prices apply. Vendor shall clearly identify their bid, by county, on **ATT B** by providing a lump sum price beside the applicable county/counties for each mobilization Contract Item they are bidding on, as listed in Section 3.2.28 of these Contract Specifications. The Pricing Pages spreadsheets list Contract Items with no guarantee that any Contract Item will be purchased throughout the life of this contract. Estimated quantities are not available.

NOTE: Bids that do not include ATT A, ATT B, ATT C, and ATT D WILL BE DISQUALIFIED.

- 6.2.1** Bid evaluations will be based on the bid prices submitted on **ATT A** and **ATT B**. Vendor entries of bid prices or other notations made in wvOASIS commodity line descriptions will not be considered for bid evaluation or award.
- 6.2.2** Vendor should type or electronically enter the information into the Pricing Pages spreadsheet to prevent errors in the evaluation. Vendor should not place formulas or any type of Excel calculations into the List Price column, only the actual bid price per Contract Item. In most cases, the Pricing Pages are available in wvOASIS within the solicitation attachments; however, Vendors may request an electronic copy of the Pricing Page spreadsheets for bid purposes by sending an email request to the following address: DOTProcurement@wv.gov.
- 6.2.3** Changing a column or row description, Contract Item description, or unit of measure on **ATT A** or **ATT B** may result in disqualification of the Contract Item bid on the altered line. In circumstances when all Contract Items must be bid for bid evaluation and contract award, the disqualification of any Contract Item will result in the disqualification of the entire bid.
- 6.2.4** Submitting Pricing Pages other than those provided with this solicitation, as described in Section 6.2, may result in disqualification of the Vendor’s bid in its entirety.

REQUEST FOR QUOTATION
Asphalt Material, Delivery, & Labor by Vendor

- 6.3 Plant Information Forms, Attachment C (“ATT C”) and Attachment D (“ATT D”):** There are two (2) Plant Information Forms that must be submitted with corresponded Pricing Pages at the time of bid: **Attachment C Asphalt Plant Information Form (ATT C)** identifies the Asphalt Plant and **Attachment D Stone Plant Information Form (ATT D)** identifies the Stone Plant for shoulder stone placement.

All Plant Information Forms shall be completed by Vendors and shall identify WVDOT Approved Plants, as amended, supplying materials associated with bid items on the Pricing Pages. Plant Information Forms shall include:

- Name of Vendor submitting the Plant Information Form as part of bid.
- The plant name.
- Physical street address, city, and state.
- Latitude and longitude coordinates.
- Counties the listed plant will supply materials to.

If the Vendor fails to provide the Asphalt (ATT C) or Stone (ATT D) Plant Information Form, identifying all plants from which asphalt or stone will be pulled from, their bid will be disqualified.

- 6.4 Contract Award Transition:** Upon the award of this contract, WVDOT will announce the effective start date. Any order issued under the previous contract will remain in effect and shall not be cancelled without mutual written agreement between the issuing agency and the Vendor.

7. ORDERING AND PAYMENT:

- 7.1 Ordering:** Vendor shall accept orders through regular mail, facsimile, email, or any other written forms of communication. Vendor shall maintain and keep current its phone numbers, fax number, email address, locations, and ordering/billing/payment addresses with the WVDOT and in wvOASIS. Vendor may, but is not required to, accept online orders through a secure internet ordering portal/website. If Vendor has the ability to accept online orders, it should include in its response a brief description of how Agencies may utilize the online ordering system. Vendor shall ensure that its online ordering system is properly secured prior to processing Agency orders online.
- 7.2 Agency Delivery Order:** District personnel must issue an ADO from wvOASIS for specific quantities of materials based on each project’s requirements and detailing the need and location information of work to be completed per Contract Items, as well as the start and end dates, which will become the agreed upon

REQUEST FOR QUOTATION
Asphalt Material, Delivery, & Labor by Vendor

official start and end dates. The ADO must be created in wvOASIS and approved to "Final", prior to placing the order with the Vendor. The District is responsible for creating the ADO in OASIS and is required to submit the approved order, in writing, directly to the vendor via mail, email or fax. **Verbal communication with the Vendor is not considered an official order.** In the event the Vendor denies an order or if there are changes to an ADO, the District must process a change order to the approved ADO issued from wvOASIS.

Emergencies shall be prominently noted on the ADO. Once complete, the ADO shall be sent to Vendor via fax, email, or mail.

7.2.1 Lead Time: The WVDOT should plan accordingly to allow the Vendor a minimum of 14 calendar days prior to the date of the agreed upon start date on the ADO to allow Vendor to mobilize and begin work.

7.3 Payment: Upon completion of the work indicated on the Delivery Order, Vendor shall accept payment in accordance with the payment procedures of the State of West Virginia. The State of West Virginia currently utilizes a Purchasing Card program, administered under contract by a banking institution, as well as Electronic Funds Transfer as methods to process payment for goods and services. The Vendor shall accept the State of West Virginia's Purchasing Card and Electronic Funds Transfer for payment of orders under this Contract. Electronic Funds Transfer for payment is available through the WV State Auditor's Office. The Vendor may visit the WV State Auditor's website (www.wvsao.gov) for all necessary forms and instructions. Payment method may be dictated at WVDOT's discretion.

8. PROJECT ACCEPTANCE, DELIVERY AND RETURN:

8.1 Project Acceptance and Written Verification of Receipt: Upon receipt of an ADO, the Vendor shall advise the WVDOT in writing within five (5) calendar days of their acceptance or refusal of the ADO. As verification of receipt, **Vendor must provide written acknowledgement of any Delivery Orders and any Revisions/Modifications thereto sent by WVDOT.** Failure to provide the WVDOT with written acknowledgement of any Delivery Orders/Revisions within five days of the Order being sent shall be considered refusal of the Delivery Order. Upon Vendor's acceptance, WVDOT should submit an ADO in wvOASIS and provide the Vendor with the ADO number for their reference.

In the event of refusal, the WVDOT at its own discretion shall cancel the ADO and may seek to obtain the requested goods or services from another low bid Vendor or proceed with an Emergency Purchase from the open market. A Vendor refusing an ADO forfeits their interest in the ADO. For example, a Vendor cannot

REQUEST FOR QUOTATION
Asphalt Material, Delivery, & Labor by Vendor

decline work offered as lowest bid at Plant A with the expectation that the same work will be reoffered to them at Plant B at a higher bid price, even if Plant B is the next low bid. While it is at the discretion of the Vendor to choose which plant to pull material from, the lowest bid price must still be honored.

8.2 Negotiation of Dates: The WVDOT shall have the option to negotiate the project's tentative start and end dates with the Vendor. **Project work shall be continuous to completion unless otherwise approved in writing by the WVDOT District Engineer or their designee.**

8.3 Delivery Time: The Vendor shall mobilize, commence, and complete work delivery in accordance with the WVDOT's written Delivery Order, per project. Any changes must be communicated by the Vendor in writing to the WVDOT District Engineer or their designee. The Vendor shall work in an efficient manner in effort to keep traffic delay to a minimum and traffic must be adequately and safely accommodated. Vendor shall ship/provide all orders in accordance with the dates assigned to each project per the Delivery Order and shall not hold orders until a minimum delivery quantity is met. **No Vendor is authorized to ship project related goods or begin work/services, nor is the WVDOT authorized to receive materials, prior to the issuance of a Delivery Order.**

8.4 Late Delivery: The Agency placing the order under this Contract must be notified in writing if orders will be delayed for any reason. Any delay in delivery that could cause harm to an Agency will be grounds for cancellation of the delayed order, and/or obtaining the items ordered from a third party. An Agency placing an ADO under this Contract must be notified **in writing by the Vendor no later than five (5) business days prior to the scheduled start date from the Agency's order.** Any failure to notify, acknowledge receipt of WVDOT's written ADO/revisions, resulting in delivery delay or failure to start or complete the project per the WVDOT scheduled due dates, may be determined by the WVDOT at its sole discretion as harmful to the Agency and as such, shall result in WVDOT's cancellation of the ADO and application of Liquidated Damages.

Any Agency seeking to obtain items from a third party under this provision must first obtain approval of the WVDOT Procurement Division.

8.4.1 Liquidated Damages: If the Vendor's work completion or corrections of deficient work exceeds the ADO completion due date or timeframe, the Vendor shall agree that no extension of contract time will be granted unless Liquidated Damages are applied by Vendor as an itemized invoice credit for the corresponding ADO. The WVDOT shall calculate Liquidated Damages per project beginning on day one (1) after the

REQUEST FOR QUOTATION

WVDOT's specified ADO due date and in accordance with this Section, the Contract's Terms and Conditions, Standard Specs Section 108.7, and the following Standard Specs Section Table 108.7.1 - Schedule of Liquidated Damages, as amended:

TABLE 108.7.1
Schedule of Liquidated Damages

\$10,000,000	\$25,000,000	\$3,100
\$25,000,000		\$4,200

- 8.5 Adverse Weather Conditions:** Unsuitable/adverse/inclement weather conditions may dictate the work schedule. It is preferred that operations be suspended immediately when an inclement weather event begins or if the WVDOT District Engineer or their designee determines that an inclement weather event is imminent. If working conditions are dangerous or unsuitable for the WVDOT, Vendor, or general public, work shall be suspended by the WVDOT Engineer or their designee. If needed, revision to the project's start and end date may be negotiated by the Vendor and the WVDOT Engineer or their designee. After a weather-related suspension of work, the WVDOT District Engineer or their designee shall determine and convey in writing, such ADO changes and when work shall commence/resume, followed by the Vendor's written acknowledgement, per Section 8.1 of this Contract Solicitation.
- 8.6 Delivery Payment/Risk of Loss:** Standard order delivery shall be F.O.B. Vendor's plant location. **Asphalt Haul by Vendor, Contract Items 25 and 26,** shall be requested on the ADO. Vendor shall include the cost/discount of standard order delivery charges in its bid pricing and is not permitted to charge the Agency separately for such delivery.
- 8.7 Project Acceptance Criteria:** The WVDOT District Engineer or their designee shall have final acceptance of the work done by the Vendor, per project. Any work found by the WVDOT District Engineer or their designee not performed in accordance with these Contract Specifications and the Standard Specs, as amended, and/or found deficient and unacceptable by visual inspection will be rejected and, at the Vendor/Contractor's expense, will be removed and replaced by the Vendor with work being continual until the Vendor's deficient work corrections are completed and deemed acceptable and approved by the WVDOT

District Engineer or their designee. Under no circumstance shall the Vendor's deficiency corrections exceed twenty calendar days unless otherwise declared in writing by the WVDOT District Engineer or their designee, subject to Liquidated Damages as per Section 8.4.1 of these Contract Specifications.

- 8.8 Rejection of Unacceptable Contract Items:** The decision of the WVDOT District Engineer or their designee regarding materials, workmanship, quality etc., shall be final per Standard Specs Section 105, as amended.

Responses to Questions from Vendors

Question 1

Item 82 Laydown for Items 80 – HPTO

For the laydown of material item for HPTO, would the DOH consider changing the ranges to 500-1000, and 1001 tons or greater? Because HPTO is placed in a very thin layer, substantial quantities can be placed in a relatively short period. Smaller quantity ranges may not adequately account for the production efficiencies achieved on larger projects. Establishing larger ranges could improve production and efficiency and result in more favorable pricing for WVDOH when utilizing this mixture.

Response 1

Thank you for your suggestion. We will consider these changes for future solicitations.

Question 2

Separate Laydown Item for Item 83 – Ultra Thin

Would WVDOH consider establishing a separate laydown item for Ultra-Thin and using quantity ranges of 500–1,000 tons and more than 1,000 tons? Like HPTO, Ultra-Thin is placed in a thin layer, allowing substantial quantities to be placed in a relatively short period. Having larger quantity ranges could improve production efficiency and result in more favorable pricing for WVDOH.

Response 2

Thank you for your suggestion. We will consider these changes for future solicitations.

Question 3

Pavement Repair Services (Contract Items 64 - 79)... reviewing bids from previous years, there seems to be some confusion on how these items are intended to be used and what is covered under each. For example, Base Failure Repair, Asphalt 501 Square Yards or Greater has an average bid of \$151/SY but a range of \$6.50/sy to \$420/sy.

Is it the intent of the Base Failure Repair, Asphalt and Base Failure Repair, Stone items to be used to quantify the physical work being done for the repair (and incidental materials – tack coat, etc) and then the Asphalt material and Stone material should be paid via a separate materials item?

This is how I read Section 3.2.15 but the section does not identify a payment item for the stone used in the repair. Whether or not my interpretation is correct, could be a better definition be made to describe what these items are used for and what portion of the work everything should be charged too?

Response 3

Asphalt Base I was added into Section 3.2.15 of the Specifications to be used for Pavement Repair Services. Per Section 3.2.15 of the Specifications “all pavement repair services shall include all labor, equipment, and materials, and other incidentals, except for Asphalt Base I, Asphalt Base II, and stone.” Per this statement, Base I Asphalt and stone are charged under their own contract items in this contract. Please note that Section 3.2.15 in the Specifications has now been revised to include Asphalt Base I.

Question 4

Detail for Pavement Repair. The Base Failure details appear to call out the use of Base Type I but the specifications calls out Base Type II. Which requirement governs?

Response 4

Base Type I has been added for Pavement Repair. Please reference section 3.2.15 of the Revised Specifications. It will be up to the District Engineer or their designee to use Asphalt Base I or Asphalt Base II.

Question 5

The detail identifies Class 9 stone. Would WVDOH consider allowing or specifying Class 1 stone?

Response 5

Class 1 stone can be used upon request from the WVDOT District Engineer or their designee. Specifications revised to include Class 1 and Class 9 stone in section 3.2.2.2.

Question 6

Specification Section 3.1 calls out that “Note 1 of Section 401.2 of the Standard Specifications shall not apply.” Because Note 1 was in the 2024 Supplemental Specification and removed the former shale, coal, and deleterious-material limitation, the current PO language now appears to exclude a note addressing slag. Please confirm whether exclusion of the current slag-related note is intended. If it is not intended, the outdated reference should be removed or corrected.

Response 6

The note in Specifications section 3.1 has been removed.

Question 7

Section 3.2.16 Asphalt Base, Wearing, and Patching and Leveling Courses calls out Exhibit 3 which is a Special provision designed around the use of higher RAP contents. There has been a revision done to Section 401 and subsequent Material Procedures that should be used in lieu of this Special Provision. Will the DOH consider removing this reference to Exhibit 3 from the PO Specifications?

Response 7

Exhibit 3 (EXH 3) “Section 401 Asphalt Base, Wearing, and Patching and Leveling Courses” has been removed.
