Technical Questions

- 1) Question: Basically, we can't produce and have stamped for DOT using a product that has no formal drawing from WV certified PE. This RFQ does not have that drawing attached. We need an approved, and WV PE Stamped, drawing for this specific size of lagging. This can come from District 1 directly, and the gist of the emails so far is that they (D1) must provide those drawings. Can you please provide the drawing, or in some other way clear up these concerns, so that we may proceed with bidding, knowing that all will be well?

Answer: Please see the attached drawing that will show what sizes are needed. You may have to zoom in on your computer once downloaded to show sizes etc.
